Lifestyle in Egypt

1.My Daily Life in Egypt

Every day in Egypt is full of simple and fun routines. In the morning, my mother buys baladi bread before breakfast. My father and I drink sugarcane juice when it's hot in the summer. When the clothes are clean, I help by hanging the laundry. I also fold clean clothes and put away the groceries. At home, we all help with housework. Sometimes I do the dishes and dust the rug. I enjoy helping my family, and I feel happy when everything is clean and tidy.

2- Living the Nubian life

The Nubian people live in southern Egypt along the Nile River. Their homes are built from mud bricks and are painted in bright, cheerful colors. They speak both Arabic and Nubian languages and enjoy music and dancing. Many Nubians work as farmers while others create beautiful crafts to sell. Nubian women wear colorful dresses, and men wear traditional galabeyas. Their language is an important part of their identity, and they take great pride in their rich history.

3- Voices from our villages

In Egypt, there are many beautiful villages. People in each village do different jobs. In Omar's village, the fishermen go out in boats and use small fishing nets to catch fish. In Amina's village, the people are fishermen too. Salma's village is full of farms, and the farmers harvest the crops every year. In Hassan's village, his family spins wool and weaves it on looms to make carpets. Life in the village is peaceful and the people work hard every day. I think village life is interesting because people help each other and enjoy their work

4- A Day in My School Life

Every school day is special. I wake up early at 6:30 a.m., get dressed, and have a healthy breakfast. Then I go to school with my dad. At school, we stand in line, salute the flag, and sing the national anthem. After that, we go to class and study many subjects like Arabic, Math, English, and Science. During break time, I eat a snack and play with my friends. I enjoy PE the most because we play games and have fun. School finishes at 1:30 p.m. Then I go home, have lunch, rest, and do my homework. I love my school day!

Subject: My School Day

Hi John,
How are you? I hope everything is great. I want to tell you about my school day in Egypt. I wake up at 6:30 and go to school with my dad. At school, we salute the flag and sing the anthem. Then we start our lessons. I like Arabic and PE a lot. At break time, I eat and talk with my friends. School finishes at 1:30, and then I go home, eat, and do my homework.
What is your school day like?
Bye for now,
Ali

6- Daily Life in Beni Suef

Beni Suef is a beautiful governorate in Egypt. People there wake up early and start their day by cleaning the house and preparing breakfast. Many people work on farms. They grow cotton, beans, and vegetables. Some people work in factories where they make cement and clothes. At noon, families eat lunch together. They usually eat rice, bread, and vegetables. Life in Beni Suef is simple and full of hard work.

Our Nature

1. Caring for Plants

Laila visits her grandpa's garden. He grows many herbs like basil and mint. Laila and her brother help him take care of the plants. Every morning, they water the plants and pull out the weeds. Grandpa checks the plants for insects. He loves his garden and takes care of it every day. Plants help people and give us food, oil, and shade. We must care for plants to keep the environment clean and healthy.

2. The weather in Egypt

The weather in Egypt is different in every city. In Alexandria, it is cold and rainy. The wind is blowing, an the sky is cloudy. People are staying at home. In Cairo, the sun is shining, and it is warm. Children are playing in the parks. Some people are sitting in gardens. In Aswan, it is very hot. People are drinking water and sitting in the shade. Farmers water the plants in the morning. The weather is changing, and people are watching it every day.

3. Animal Habitats in Egypt

Egypt has many animals living in different places. The caracal lives in the desert and mountains. It has golden fur and long black ears. It hunts at night and rests in caves during the day. The ibis lives near the Nile. It has long legs and a curved beak. It looks for fish and insects in the mud. The sea turtle lives in the Red Sea. It swims with strong flippers and eats jellyfish. Each animal needs its home to live. We must keep nature clean to help animals stay safe and healthy.

4. A Trip to Wadi El Rayan

Last Thursday, we went on a school trip to Wadi El Rayan in Fayoum. Our teachers came with us. I sat with my friends on the bus. The sun was shining, and the sky was clear. We saw farms and camels on the way. A kind guide showed us the lakes and waterfalls. We saw a fennec fox and a white bird. After lunch, we visited Wadi El-Hitan. We saw whale bones in the desert! It was amazing. I took a small rock to remember the trip. It was a fun day full of nature and learning.

5. My Wildlife Fact Card – The Fennec Fox

The fennec fox lives in the Egyptian desert. The weather there is hot and dry. It has big ears to help it stay cool. The fennec fox sleeps during the day and hunts at night. It runs fast on the sand. It is small and very cute!

6. 🌴 The Date Palm Tree 🌴

The date palm is a plant that grows in Egypt. It lives in the hot and sunny desert.The tree has long green leaves and gives sweet dates. People eat dates and use the tree for food and shade.The date palm is strong. It can live in dry places with little water. It is a very special plant in Egypt.

7. Email

To: Kareem@yahoo.com
From: Youssef@gmail.com
Subject: The Weather Today
Hi Kareem,
How are you? Today, the weather is different in many places. In Alexandria, it is rainy and windy. People are staying at home. The sky is cloudy. In Cairo, it is sunny and warm. Children are playing in the parks. People are walking in the streets. In Aswan, it is very hot. The sun is strong. People wear hats and drink water. What about your city? Tell me about the weather there!
Your friend,
Youssef

Community builders

1. Jobs That Help the Community

There are many jobs that help our community. A paramedic helps people in an emergency. A mechanic fixes cars and bikes. A traffic officer helps us cross the road safely. A street cleaner keeps our streets clean. A water resources engineer gives us clean water. These jobs are very important. I want to help my community in the future too!

2. Let's Help Our Community

Our community needs our help. The traffic near the school is noisy and dangerous. We can make posters and signs that say "Drive slowly!" We can also walk or ride bikes to school. To save water, we should turn off the tap and use water carefully. When we all help, things get better. Let's help our community every day!

3. The Moral of the Story(The proud rose)

The story of the proud rose teaches us a lesson. The rose had soft red petals, but she was not kind. The cactus had many sharp thorns, but he was helpful. When the rose needed water, the cactus helped her. The rose said "sorry" and learned to be kind. The moral of the story is: Don't judge others by how they look.

4. Biography: Dr. Mostafa El-Sayed

Dr. Mostafa El-Sayed is a great Egyptian scientist. He was born in Egypt. He liked learning and went to school in Cairo. Then, he studied in the USA.
He works with very tiny things called nanoparticles. He used tiny gold pieces to help doctors find and treat cancer. Dr. El-Sayed has received many big awards, including the US National Medal of Science. He's a true hero of science and He makes Egypt very proud!

5. Let's Stop Food Waste

Food waste is a big problem. Sometimes people make more food than they eat. Restaurants throw away good food. Some people don't have food to eat. Wasting food also wastes money and water. It makes more garbage and pollution. We can stop food waste by planning our meals, buying only what we need, and storing food properly. We can also give extra food to poor people or feed animals. Let's help our community!

6. Our Community Clean (poster)

We must keep our community clean. We must not throw rubbish on the ground. We should put trash in the bin. We should help clean the streets. We must take care of our school and our park. A clean place is a happy place!

Resources around us

1. Egypt – Past and Present

Ancient Egyptians used many materials. They used papyrus to write, linen to wear, and gold to make things beautiful. They built temples from granite and bricks. These materials helped them survive the hot weather. Today, we use modern materials, but some ancient materials are still useful. Egypt is great in the past and the present!

2. Let's Save Energy
(Let's use energy wisely)

We use energy every day to turn on lights, cook food, and watch TV. Energy can run out, so we must save it. In Egypt, we can use solar power because we have a lot of sunshine. We should turn off lights when we don't need them. We should close the fridge door quickly. We can also walk or ride a bike instead of using a car. This helps the Earth and keeps us healthy. Let's all be energy heroes!

3. My Research Project

I made a research about man-made resources. First, I asked: What are man-made resources? I found that they are things made by people, like cars, buildings, clothes, and paper.

I used my school book and asked my teacher to help me. I wrote short notes and drew pictures of man-made things. Then I checked my work for spelling and full stops.

I liked this project because I learned how people use things from nature to make new things!

4. My Magnetism Project (Report)

One day, my friend Sara and I did a project about magnets in our science class. We tested what magnets stick to. We learned they work on iron but not on plastic. A problem happened when a magnet touched my phone! Our teacher told us to keep magnets away from electronics. We learned a lot!

5. The High Dam in Egypt (A Fact File)

The High Dam is a big wall across the Nile River in Aswan, Egypt. It was built between 1960 and 1970 to stop floods and store water. The dam helps people in many ways. It gives water to farmers to grow food. It also makes electricity for homes, schools, and hospitals. The dam keeps people safe from floods and gives water all year. It also made a large lake called Lake Nasser. The High Dam is very important for Egypt.

Made in Egypt

1. A trip through the time (The Grand Egyptian Museum)

Tourists love to visit Egypt because it has many exciting places. One of the best places is the Grand Egyptian Museum. It is near the Pyramids, which makes the location special. Visitors can see Tutankhamen's mask and many old things in the museum. People can get help from the information desk. They can take a guided tour, read a brochure, and enjoy the exhibition. The museum is a great place to learn about ancient Egypt.

2. Al Galala City

Al Galala City is a beautiful new city in Egypt. It is near Ain Sokhna and built on a high mountain. The city has clean air, sea views, beaches, and a fun cable car. It also has a big university for students. Many people live and work there now. It is a smart and modern city.

Unit 5 Grade 6

3. The Bundle of Sticks

The Bundle of Sticks is a story about a wise old man and his three sons. They lived in a small village near the Nile. The sons always argued and didn't work together. The father was worried, so he gave them a bundle of sticks. They couldn't break it, but when he gave them single sticks, they broke them easily. The sons understood the lesson. They learned that working together gives strength. The story teaches us the importance of unity.

4. Your Opinion about an industrial city (Benban Solar Park)

I think Benban Solar Park is a smart and important project for Egypt. It is in Upper Egypt, near Aswan. It uses clean solar energy from the sun. This helps us keep the air clean and reduce pollution. It also gives electricity to schools, homes, and hospitals. I feel proud of this project because it helps people and the environment. It gives many jobs to workers and teaches them new skills. In conclusion, Benban is a great step for a better future in Egypt.

5. Display Board of Lotus chalice

This chalice is made of alabaster. It looks like a white lotus flower with two handles. It was found in King Tutankhamun's tomb. Now, it is in the Grand Egyptian Museum. It was used in special ceremonies like funeral rituals. It is a symbol of eternal life and beauty. People believed it helped the king live forever in the afterlife.
